-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 January 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 3751

1. The drawings are objected to because reference numerals "36" (pg. 4 ln. 7), "62,64" (par. 0021 ln. 2), "82" (par. 0021 ln. 12) and "111" (par. 0025 ln. 4) are missing. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The use of the trademark "VELCRO" has been noted in this application (par. 0025 ln. 9). It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

3. Claim 16 is rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for an awning support including two flex rods and a cross member, does not reasonably provide enablement for only two flex rods. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.

4. Claims 1, 2, 5, 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is unclear as to whether the "spa" is intended to be part of the claimed combination since structure of the

Art Unit: 3751

"enclosure" is defined as being connected thereto (lns. 3-6), but no positive structural antecedent basis therefor has been defined. Claims 2 and 5 are similarly indefinite.

Claim 16 is unclear as to whether the "spa" is intended to be part of the claimed combination since structure of the "enclosure" is defined as being connected thereto (lns. 3-6, 9, 12 and 14), but no positive structural antecedent basis therefor has been defined. Claim 17 is similarly indefinite.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Durham.

Considering claim 16 to be drawn to the awning per se, the Durham reference discloses an awning comprising: a first shaft H; a second shaft H; a first flex rod H'; a second flex rod H' a canopy (Fig. 1); and a cross member K, as claimed. The initial statement of intended use (hot tub/spa), and all other implications related thereto, have been considered but do not

appear to impose any patentably distinguishing structure over that disclosed by Durham.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The Sanford et al., Gerber, Gabriel and Biddle references disclose various awnings having features in common with the instant invention.

8. Claims 18-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

9. Applicant is referred to MPEP 714.02 and 608.01(o) in responding to this Office action.

10. Any inquiry concerning this communication should be directed to Robert M. Fetsuga at telephone number 571/272-4886 who can be most easily reached Monday through Thursday.
